REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Applicant's arguments are persuasive, the prior art does not show a magnetic bearing control device for controlling a magnetic bearing to support a rotor in a non-contact manner with a digital processor to control the magnetic bearings with a magnetic bearing control signal and that generates a command signal in response to outputting the magnetic bearing control signal, where the command signal starts a counter for accumulating and counting the actual work of the magnetic bearing, and where the digital processor performs a comparison between the accumulated actual work time of the magnetic bearing and a preset maintenance time then outputs a signal indicating a start of a maintenance operation of the magnetic bearing based on the results of the comparison.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication should be directed to Karl I.E. Tamai whose telephone number is (571) 272 - 2036.

The examiner can be normally contacted on Monday through Friday from 8:00 am to 4:00 pm. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Darren Schuberg, can be reached at (571) 272 - 2044. The facsimile number for the Group is (571) 273 - 8300.
